

Welcome to Goethe-Schule in Eberswalde!

Eberswalde is a nice old town about 40 km north east of Berlin near the Polish border in Brandenburg County (look at the map). About 40.000 people live in our town and we have nice surroundings with lots of lakes and forests.

The name of our school is Johann-Wolfgang-von-Goethe-Schule. A secondary modern school and a primary school are combined in 3 buildings. Building A is our secondary modern school, building B is our primary school and in building C you can find the staff room and the offices as well as a fantastic

Art room.

Our school was built in 1926. But it has been reconstructed in the last years and looks very new now. From the tower you have a wonderful view over the town.

We are 630 pupils and 50 teachers at our school. Our teachers are very nice. The school is led by our headmaster Mr Hobohm and his two assistants Mrs Bullerjahn and Mr Lipke.

Lessons start at 7.30 or 8.20 in the morning. We have 6 lessons every day.

All classrooms are equipped with an overhead projector, DVD or VHS-player, a TV, a green board and some with an “interactive smart board”.

Our PE lessons take place in one of our two gyms or at the sports ground.

We have compulsory and optional subjects. Our compulsory subjects are French, Sciences, Drama and Computer technology. The other subjects are optional ones. All pupils learn English.

We have many extracurricular activities like football, handball, cooking, music and band or a Comenius workshop.

Our partner schools are in Denmark, Poland and in Finland. We can go there for pupils’ exchange. That is interesting. Our teachers are preparing a new Comenius – Project. Maybe then we will have partners in Turkey, Estonia and Hungary, too.

These beautiful ladies are from the ballade “Der Erlkönig” of our national poet Johann Wolfgang von Goethe. They are Erlkönig’s daughters and can even move their heads. That looks scary.

Have you got any questions? Then write a mail!

Best wishes
Class 7c

(A project work of the pupils of class 7c and their teacher Andrea Zimmermann.)
